What people say about the course: *Our entire leadership team took the Dare to Lead course with Cynthia. As a manufacturer, we are pretty good at engineering the vulnerability out of systems, but to speak up and be vulnerable in leadership is hard. DTL has given us the tools to do just that.*

Cynthia Scherr, Certified Dare to Lead™ Facilitator and management consultant with Scherr Management Consulting, facilitates the course. Cynthia enjoys teaching Dare to Lead™ because of its transformative impact on the lives of individuals and organizations. See also www.scherrconsults.com.
